

OptiSperse* ADJ5050

liquid caustic 50%

- Easy-to-use liquid
- High strength liquid caustic
- Alkalinity adjustment

description and use

OptiSperse ADJ5050 is a 50% caustic soda solution used to control boiler water alkalinity. Because this product is a liquid, the hazards associated with dissolving dry caustic soda are significantly reduced.

treatment and feeding requirements

Proper treatment levels for OptiSperse ADJ5050 depend on many factors particular to a given installation. The product should be used in accordance with control procedures that SUEZ establishes for a specific application.

OptiSperse ADJ5050 may be fed neat or diluted to any convenient strength with softened makeup, condensate, or feedwater.

general properties

Physical properties of OptiSperse ADJ5050 are shown on the Material Safety Data Sheet, a copy of which is available on request.

packaging information

OptiSperse ADJ5050 is a liquid blend, available in a variety of containers and delivery methods. Contact your SUEZ representative for details.

storage

Optisperse ADJ5050 has a freeze point of approximately 10°C (50°F). Store at moderate temperatures and protect from freezing. If frozen, thaw completely and mix thoroughly prior to use.

safety precautions

A Material Safety Data Sheet containing detailed information about this product is available on request.
